

The Labcold Breast Milk refrigerator has been specifically designed to store human milk in optimum conditions. With three adjustable shelves and an interior fan for even temperature distribution, this fridge is fitted with a lock for extra security.

The simple to use four button controller displays the internal temperature of the fridge, but it also shows minimum and maximum temperatures which can be displayed at the touch of a button. It also alarms if the internal temperature drops below 0°C or rises above 5°C. The Breast Milk fridge is also fitted with a door open alarm and, if batteries are fitted, a mains failure alarm.

The RLBM0510A is fitted with a handle designed to stand proud of surrounding units for easy opening and closing.

We are confident that this breast milk refrigerator will provide you with many years of fault free service. However, for extra peace of mind your RLBM0510A comes complete with a FREE 1 year parts and labour warranty!*

The controller automatically stores temperature data and refrigerator performance. A specifically encoded SD card is available as an optional extra for data transfer so these records can be stored to your PC. Why not ask for details when you place your order?

RLBM0510A Breast Milk Refrigerator

Part Number	RLBM0510A
Capacity (Litres)	150
Style	Under Bench
Exterior Dimensions (HxWxD)	835 x 600 x 600mm
Interior Dimensions (HxWxD)	690 x 480 x 410mm
Energy Consumption	1.94 kWh/24h
Operating Temperature	+3°C
Interior Construction	Powder Coated Steel
Exterior Construction	Powder Coated Steel
Shelves	3
Internal Drawers Available	✓
Door Style	Solid
Door Hinging	Right (can be reversed at time of manufacture)
Door Lock	√
Self Closing Door	✓
Digital Temperature Control	✓
Digital Temperature Display	✓
Internal Light	✓
High/Low Temperature alarm	✓
Minimum/Maximum Temperature Recording	✓
Door Open alarm	✓
Mains Failure alarm	√
Alarm Battery Back-Up	√
Off cycle auto defrost	√
Fan Assisted Cooling	√
Remote Alarm Contacts	√
